

JOINT SERVICE SET-ASIDE PROJECT

PROJECT OFFICER

HISTORY

- Support Joint Service NBC Surveillance requirements for clothing/textile items in accordance with Memorandum of Agreement (MOA) established with Defense Supply Center Philadelphia (DSCP) and the Services

Continued..

- Nov 2001 MOA was signed between the services and DLA/DSCP. The Joint Service Equipment Assessment Program (JSEAP) assumed management/management support of this process.
- JSSAP conducted NBCD equipment inventories in all DLA stocked facilities, pulled samples for storage and follow on shelf life extension testing.

Satisfying the Requirements

- The Joint Service Set-Aside Project was established in Aug 1999 at MCLB Albany, GA.
- Two additional facilities were established at Barstow, CA July 2001 and Columbus, OH Feb 2002.
- There are plans for two additional facilities pending storage and funding availability.

Continued..

- Established the DOD Shelf Life Management Web Site (<http://shelflife.pmnbc.com>). The site provides the following information:
 - ✓ Logistic information on over 384 NSN items
 - ✓ Archive for Publications and Military Specifications
 - ✓ Official message releases on extended items
 - ✓ Archive for all chemical and physical property tests
 - ✓ Searchable shelf life extension system
